MARCH, 2019

I am María Cerezo and I live in Spain.

This experience has been unique, I have been able to improve my English thanks to the coexistence with the exchange students and I have met wonderful people. My exchange student has seemed me very polite and sociable, an amazing person. Thanks to this project I have realized how important it is to know how to speak English and the advantages that this has.

In addition to getting along with the student who came to my house, I have made great friendships with others, I have had a great time with them and I am very happy to have been able to participate in this. I am so fond of all of them that I look forward to seeing them in September, I hope this is the beginning of a long friendship. The places we visited I already knew them because I live here, but I liked it more when I visited them with them, the day at the beach was the best for me, we ate together, we enjoyed the sea and we walked along the beach, it has been a very important week for my. I hope more people have the opportunity to live this experience because it is really precious. I am happy to say that there haven't been bad conducts and that we have been able to laugh, dance and enjoy ourselves together.
