Erasmus + KA229  
INTEGRATION OF MOBILE APPS  
INTO EDUCATION  
2018-2020

---

MARCH, 2019

Hi, I'm Alejandra from Spain.

The project Erasmus+ Ka229 was a very good experience, I meet new people and I enjoyed a lot knowing other cultures.

In my case it was the Polish culture, Polish teenagers are very outgoing and polite I would never could imagine that I can get along so well with a completely unknown person from other countries.

I also, I reckon that I was nervous because I was afraid about how I was going to communicate, but at the end it was so easy with her but it was so easy.

Through this experience I've found that I know more English that I thought, but I have to continue learning.

I hope that one day I could do it again because it's an incredible opportunity to learn and know new people.

After this event I discovered that is so important knowing languages because if I hadn't known English I could never have lived this magical experience

In conclusion for my Erasmus was an unexpected surprise and I would repeat it again because for this experience now I have friends in Poland

Best regards, Alejandra.
