Hi! I'm Guillermo Muñoz Andree, I'm 16 years old and i live in Santomera that is a small town near Murcia(Spain) . The polish guy who stayed in my house is called Bartek Czarnecky or Czarny , Czarny in polish means black ,he was a very polite boy , very friendly and very talkative , we talk a lot this five days and we created a good friendship.

The thing that I liked the most of this project was when all the polish and the Spanish meet in Alberto's house was great day and Czarny and Lukasz jumped into the pool, that was insane. The only thing that I would change would be the trip to" El Museo de la Huerta" because was a bit boring but it was good actually , I love that experience and I'm looking forward to going to Poland to see my polish friends and to go on with the project.

See you soon.
