MARCH, 2019

Hello, my name is Andrea Rubio from the Spanish group.

I really enjoyed participating in this project and I really enjoyed having shared this experience with such lovely people as the students and teachers from all the countries which participate in the Erasmus+ KA229 project, Spain, Austria Turkey and Poland.

I am delighted with the person who was in my house, I really enjoyed her company and the time I spent with her.

I also would like to thanks the teachers from my school for getting so involved in the project and be so understanding.

The Erasmus was very good organised that's why we could enjoy it a lot, what's more interesting of this project is that I could improve my speaking.

I'm looking forward to travelling to Austria and meet my host family.

Best regards, Andrea.
