Hi,

My name is Alberto Navarro Villanueva, and I'm sixteen years old. I live in a small town in Murcia, Spain, its called Llano de Brujas. The guy who stayed in my house was Polish and his name is Dominik Gotemberski, he was very polite and nice with all of the members of my family and with me of course.

The thing that I loved the most was meeting all the polish guys, just in a few day it was created a good relationship. I loved working with the rest of the guys from all the countries, creating these apps and the logo....I wouldn't change anything about this project.

Maybe the trip or the place that I liked the least was El museo de la Huerta, it it was good actually, any place to spend time with all these polish and European people was great.

I'm waiting to seeing them in Poland next month.

Best regards.
