

Nasiha Halilovic

Hello! My name is Nasiha and I was born on the 3rd of September 2000, so I'm 19 years old. I live with my family in Kühnsdorf in Carinthia.

My family consists of four people, my mother Sevala, my father Jzudin, my seven years older sister Nahla and me. My sister is now writing her master thesis at the university of Klagenfurt.

I attend the last year of the higher technical college of biomedical engineering. My favourite subjects are Maths and German. I really like meeting my friends in my freetime. In summertime I like going to the lake near my house.

I am looking forward to getting to know Turkey and especially Istanbul.

Stephan Pajer

Hello my name is Stephan I am one of the Austrian students in this project. I am 19 years old and I live in Klagenfurt in the southern part of Austria. My hobbies are photography and travelling. That's one of the reasons why I participate in this project. I really like it to see new countries and get in contact with the people living there. This is my second Erasmus project and I really enjoyed the first one and because of that I am really looking forward to the new project and getting to know all of you.

Selina Elbischger

Hello, my name is Selina Elbischger and I was born on September 21 in 2002, so I'm sixteen years old now. I live together with my little sister Leonie, my father Pierre and my mother Alexandra in Carinthia, Austria. Our five-year-old Golden Retriever called Duke completes the family. We live in a nice house near Klagenfurt with a huge garden.

Currently I attend the second year at the higher technical collage for biomedical engineering in our city. My favourite school subjects are medical device technology (MGT) and informatics. Although my English is not brilliant, I like the language because it allows me to communicate with people of other

countries. I guess this project will help me to improve my English.

Approximately ten years ago I attended the local athletic club here in Klagenfurt. I started the training in different athletic disciplines but for the last two years I have specialised in running at distances between 800 to 7000 meters and hurdle running. In winter I go alpine touring with my father and Duke. When I visit my aunt in Schladming in Styria I go horse-riding every time.

Last year I started to train the younger children in our athletics club. They are sooo cute and it is a lot of fun to play some thrilling games with them.

I have never been in Spain and it's a very exciting opportunity for me to visit and learn something about your culture and meet new friends. I'm looking forward to having a great time with you in your country,

Ps: If you want to contact me, here is my number: 0677/62319982

Melanie Dixler

Hello, my name is Melanie Dixler and I am 18 years old. I live with my family near the city Klagenfurt. In my family we are: my mother Nicole, her boyfriend Thomas, my sister Marion, my boyfriend Gary, my cat Sugar and me.

I am in the last class of my school, so I am now in the fifth class and this schoolyear I will do my final exam, to finish this school. Because I love traveling so much, after school, I want to travel through Europe with my boyfriend a few months. After this journey I want to study something, but I am not so sure what and where, till now.

As I mentioned before I love to travel a lot. I visited several countries in Europe, and I want to visit many more. But in my free time I also like to read a good book, listen to music, do horse-riding sometimes and I also love to do sport. Meeting my friends after school is also every time very funny.

I am looking forward to a great and interesting time, with meeting new people and visiting a new country.

See you, Meli.
