I stayed in Austria for 1 week and learned a lot. The first day I had a lot of fun and I saw that people were very friendly. I've traveled a lot in Austria. I saw it was a very different country. They like nature very much and I like this very much. I saw little damage to old buildings in Austria. They give importance to old. In Austria, they like very different desserts and they eat very sweet. That thing I am most surprised about is that the water they drink is carbonated and we are 2 different countries. I liked the school we went to was very big and very stylish school. I like to visit different places every day. The chocolate factory, church, clock tower, was great to tour the ship and toured the place a lot. The think I liked the most is that I've seen 2 cities, one is Klagenfurt, one is Graz. In general it was something I liked too much. Austria is a must see country. Thank you very much to everyone involved in this project. (Esmanur Pekgoz)
