

The Erasmus+ Project was an amazing experience, I really miss the people who I met in February, I'm very nervous waiting to seeing them again.

The first day, when we arrived to Austria, we met our host families and it was a relaxed day because we were tired for the trip. On Monday, we met at the school with the Austrian, Turkish, Polish and the rest of Spanish people, all of them are fantastic people. After the meeting we had a little presentation about the school. We did a Leds Project and then we went to the city to see Klagenfurt. On Tuesday we took a bus and went to the Castle, it was incredible. We also took a ship to sail through the lake, then we went to the Pyramidenkogel tower, I was surprised because the views were great. Wednesday was my favourite day, it was raining, we visited Graz and we saw amazing buildings, after that we had free time for us and then we went to Zotter chocolate Factory, this part of the day was the best, I discovered new flavours and I had fun watching the face of my friends eating those different and strange chocolates, it was so funny.

On Thursday we finished the Leds Project, I'm so proud about our job. We visited the Stadium, there was a forest inside "FOR FOREST", at first, I didn't understand it, but finally I thought it was amazing Project that dealt with something that is very important for us which is the climate change.

In the afternoon we had the farewell dinner, all the food was very tasty. We decided to go bowling, it was the best and the worst part of the day too, it was cool because we had time to have fun all together but, at the same time, it was my last day so I was sad for the farewell. I can say that all my afternoons were excellent, because I did interesting things like go to the lake, to the forest or to some restaurant. This project is the best opportunity I've ever had to learn English, I love the people I've met and I hope to see them again in the future.

MARIA CERZO

For me, this project gave me the possibility to improve my English and also the opportunity for meeting new friends that now I really like, and I miss them so much.

The travel to Austria was a bit long because we had to take two planes, but at the end it was okay.

Austria is a beautiful country, so different from Santomera, the small town in which I live in Murcia. I really like seeing these wonderful landscapes, its mountains, its lakes, the nature, very clean and with green landscapes etc...

The first day we visited the High School building, it was so big with a lot of classes for the Technical Studies, English, Maths, High Technology and thousand of subjects.

This day we also went to visit the city of Klagenfurt and we went looking for the main buildings playing a quiz with our European friends, all the groups were mixed and we were from 4 different nationalities, Polish, Turkish, Austrian and Spanish speaking in English, of course.

With this activity I realized how important it is to learn other languages for being able to communicate with people from other countries.

The next days we visited an amazing castle with 14 gates, the city of Graz and the chocolate factory and I really enjoyed it.

The last day we went to the school to develop and use the app for the Project, was so interesting and funny. After practicing with the apps we visited "FOR FOREST", a stadium with a forest inside.

Finally, the last night we went to the bowling all together and was a very special night for me. I would like to participate in another Project like that, it's amazing. Thank you.

REBECA BLANES CIDONCHA

Hi, today I'm going to explain how was my experience in the Erasmus+ KA229 in Austria .  
First, I went Nico's house, Nico was in my house in Spain when we did the Project here, and we started there a great friendship, we have become good Friends.  
The first day we walked into a forest and we had a conversation during hours, this was the moment that we became very good friends because we didn't know about each other and we discovered we were into the same things and it was great.  
During the stay in Austria we did a lot of thing like visiting a castle with 14 gates,we also visited the chocolate Factory, the stadium in Klagenfurt with a forest inside "FOR FOREST", the City of Graz.  
The last days we went to the High School and practiced with the apps in the workshops, it was interesting, because it deal with techonology and I love it.  
During my stay in Austria I knew that Nico would be Friends forever.  
Thanks European Unión(Erasmus) to give my the chance of participating in that kind of projects and practice my English and also Im so gratefull for meeting all the people that participate in this ideas.

ALEJANDRO RUBIO MAYOR

My Erasmus Experience was amazing. On Sunday, my host family prepared me a typical Carinthian's snack and we saw the sunset. On Monday we did a guide at the school, it was a very big building.  
In the evening, we walked to the center of Klagenfurt to saw the different places, we played a game so funny, I really enjoyed it. After that we ate an ice cream together and we visited the shopping center.  
On Tuesday, we went to visited the Castle Hochosterwitz, with a guide tour, it was great and it had 14 gates to get there, so high.  
In the evening, we had a ship tour for the huge lake Wörthersee, I stayed on the top of the ship with my host, Hannah, Selina and her sister, Leonie, we were speaking in English all the time. After the lake we went to Pyramidenkogel with the Austrian and Spanish people, the Pyramidenkogel was so high and I went down in the slide.  
The next day we went to the High School to practice in a workshop about the Apps into education, was so interesting and we enjoyed it.  
My favourites activity was when we went to the Zotter chocolate factory, I tasted all the chocolates, haha and when we go to bowling together, the Austrian people, the Polish, the Turkish and the Spanish all together as if we were a team.  
I really enjoyed this experience and if I could repeat; I would do ti. The week was unforgettable, I improve my English and I meet a lot of new people.

ALBA AYLLON PAÑOS.

The Erasmus project in Austria was a fantastic week for me. I really enjoyed this experience, we met a lot of people from 4 different countries, Poland, Turkey, Spain and Austria of course.  
In this week I met a lot of new people, I learned experiences from different cultures, this was great.  
I went to a lot of places and I think this country is so beautiful.

I liked the Klagenfurt city, but the day I liked the most was when we went to visit a great castle with 14 gates, it was the most beautiful place I've ever seen.

Another activity we did was visiting and sailing in the lake, it was such a beautiful landscape, the lake was so clean and we enjoyed the trip so much.

The second night went with our Austrian friends to the river and we had a very good time together.

We also went to visit Graz, also we went to visit a chocolate factory and a lot of places.

Other thing we did was going to the school to do the workshop about apps, so funny, because we were a lot of people from different nationalities working together to develop an application for the Project.

I will never forget the experience of being in this Project. It has been one of the most unforgettable things in my life. Thanks Erasmus project.

MERCEDES RIQUELME

I really loved my Erasmus in Austria. When I was there I was amazed because of the green landscapes and great weather.

The first day my host and I took a walk around the lake but I went soon to the bed because it was a very long journey to Austria, and I was so tired.

In the following days we went to many beautiful places. We went to the city center of Klagenfurt and did many activities in mixed groups with people from 4 different nationalities, Austrian, Polish, Spanish and Turkish.

We saw the castle and went on a boat ride along the river, it was beautiful.

We also walked to the top of the tower and slid down.

We went to a chocolate factory where we had so many types of it, 300 hundred, it was very funny.

We also did a smartphone app to program LED lights on our school's name, it was so interesting because I've never done it before.

The last day we had a dinner with food from different countries and also a barbecue. All the food was really tasty.

I'm going to miss all students I met in the Erasmus, I liked them all.

I really like to socialize with other culture's students and get to know new places around our continent.

Being in an Erasmus+ Project has been amazing.

ANDREA RUBIO

The project Erasmus+ KA229 in Austria was incredible.

The first day we arrived Austria we were collected by our host families, they showed us our homes for that week and we went to sleep early because we were pretty tired for the long trip to Austria.

On Monday we all went to the school and some Austrian students guided us through it, after that we had a city rally in Klagenfurt, in my opinion this activity was too long, but gave us the opportunity to know people from 4 different nationalities, Austrian, Polish, Turkish and the Spanish, all together to find the places in Klagenfurt in a map.

On Tuesday, we first visited the castle Hochosterwitz with 14 gates, it was so nice to see that views , after lunch we had a very nice ship tour on the Wörthersee and later my guest family picked me up and we went to the Pyramidenkogel, a very high tower where we enjoyed wonderful views.

We spent Wednesday morning visiting Graz, which I liked a lot and then we went to the Zotter chocolate factory where I had a lot of fun tasting chocolates. On Thursday, we did the school project in the morning about the Apps into education and it was funny and interesting, because I had to put into practice a lot of things I learnt that days.

After lunch we went to the "For Forest" Stadium, a Stadium with a real forest inside, later we had a farewell dinner at school and then we went to the bowling alley, it was really sad to say goodbye them all because they are amazing people and I don't know if I'll ever see them again.

PAULA HERNANDEZ.
