Visitor from Spain

ERASMUS + KA229 was an unexpected surprise, I won't forget during my life this friendships that I've done with my european colleagues , and without any doubt it was a wonderful experience ,apart from visiting a new country and knowing its culture and customs I have been able to improve my level of English and check that I still have much to learn.

After this experience I know that English is so important for futures Jobs or just for my daily life.

I hope that one day I can repeat this experienced , I think that everyone should try it because it's a great opportunity to learn and meet new friends.

All the workshops and the digital applications that we have learnt and practice during the visit to Poland, have been great and funny. We enjoyed a lot been with our friends from all parts of Europe. I think this project is great to open our minds for the future and the relationships with everyone, no matter where are you from , we are all humans.

Finally I want to add that I am very grateful for this opportunity and I would repeat without any doubt. Thank you very much.
