10th April 2019

Visitor from Spain

The travel to Poland was an amazing experience with all my friends and with our Polish partners , that week was one of the best experience ever in my life , we did a lot of things like creating a katapulta or creating and practicing with digital apps.

We did several trips during the week to know different parts from Poland. We went to Wroclaw, which is a very beautiful city, with a lot of history about the 2nd World War, I love that Romanic churches and all the stories about them. Other city that we went was Zielona Góra, that city has got a lot of cool shops like sneakers or Adidas.

One of the best time in Poland was the barbecue in Ola's house that was fantastic, we were speaking in English all the time and enjoying our time together.

Finally , the last day we did the best party ever, we were almost all the Erasmus project's students together and that party was so cool.

I would like to say that I'm so happy for participating in the Erasmus project with my school and also say that I'll never forget this experience in my life. Thank you so much.
