Erasmus + KA229
INTEGRATION OF MOBILE APPS
INTO EDUCATION
2018-2020

MARCH, 2019

Hello, my name is Rebeca Blanes Cidoncha , I'm sixteen years old and I live in Santomera, Murcia, Spain.

I've participated in the Erasmus+ KA229 project that has been so amazing, funny and didactic.

I've improved my English so much, because I have been talking all the time with everyone and it was very exciting.

For me, this project can open the doors for the teenagers, that want to learn more from other cultures, improve their level of English, meet new people and have a great experience.

Now I would like to talk about Selina, the student that stayed with me and my family at home. It wasn't any problem with her, she was so nice and polite with everyone, she is like a member of my family now.

To finish I would like to say that it has been great participating in this project with all this open-minded people and with all the teachers from my county and the other countries.

Best regards.

Rebeca

Hello, my name is Rebeca Blanes Cidoncha, I'm 16 years old and I live in Spain.

I participated in the Erasmus + project, that was very funny and didactic. I improve my english so much, because I have talking all the time with all the people in english, and it was very exciting.

For me, this project can open the doors for this teenagers that want to learn more for others cultures, improve their level of english, meet new people and have a great experience.

Maybe, I would do more activities with all the countries, because there was groups divided in countries and I don't like this.

In the moments that Selina stay in my home, there wasn't any problem, because Selina was a very good girl that finally was like one more of our family.

To end, this project makes possible travel to know more and improve our english, and I really like for this.
