Hello,

My name is Dario Carrillo Fons, I'm from Spain.

I'm going to talk about the Erasmus +;

The first part of my Erasmus experience has been very good. The most I liked about this experience was sharing excursions with a fantastic group of Polish kids who have been very funny and have made us spend a good week together.

The communication has been very good between both countries, there has not been any kind of difficulty to be understood and at all times the whole group has agreed on all the tasks performed.

Maybe the only thing I did not like is the short period of time they have spent in Spain with us. About the boy who has lived in my house, there has been no problem, the coexistence has been very good and the boy in particular was very friendly and polite. There is still the second part of my experience in Erasmus, at the moment it has been very good and I hope that the second part in Poland will be better.

About the project, I just have to say good things, so . I hope it'll be as good in the future as it has been here in Spain.

Best regards.
