MARCH, 2019

Hello everyone;

I'm Paula Fernandez Nicolás from the Spanish group.

I must say that I thought that this project was going to be worse than it has been, I would repeat this experience all the times I could do it.

We were so lucky with all the students they came, they were as fun as us and for this reason we got along very well with everyone.

Although most of the time we were not at home since we did different fun activities with them, when we got home there was always a small time to get to know each other better and to have the confidence we now have. All my family was happy to have Ola with us even my dog Calvin took her affection. It was an unforgettable week and I hope to repeat it again.

I really want to travel to Poland to see them again and spend another week the same or better. I miss them so much and it has not been three days since they left. There is less time to travel to Poland.

Best regards.

Paula Fernández Nicolás
