MARCH, 2019

Hi, I'm abel a spanish boy from the Erasmus+KA229 project.

The experience I have lived , I will never forget that it has been super exciting and intensely educational and I really loved the opportunity to meet people from other countries and having the opportunity of knowing their cultures and also to been able to know them.

This experience has also been very enriching for my education.

The visits, excursions or trips that I liked the most was the trip to Cartagena, it was amazing the view and the landscapes of the streets, the power that the guide had and how it made me to learn more English. Above all, I realized how I learned new words and I also remembered other words that I have forgotten because I didn't use it normally.

I have used a lot of English and I can see it in my daily English.

The communication with the all the students from the other countries was very funny and enriching. I've had a great, marvellous and amazing experience with this project. I hope to see everyone in the future.

Best regards.
